Artistic Performances and Exhibits	32-33

Dr. Ross Alexander

The University of North Alabama is an innovative, dynamic, and evolving institution with an engaged, committed, and high-performing faculty that is committed to the tripartite missions of teaching, research, and service. *Profiles in Excellence* showcases and highlights the accomplishments of our faculty members in the areas of research and creative activities in particular, where many have cultivated and earned national and international reputations as scholars, researchers, and artists. The scholarly books, peer-reviewed articles, funded grants, academic presentations, and creative/artistic accomplishments detailed in this publication exemplify the professionalism, creativity, and dedication of our faculty members. As a maturing and growing institution, the University of North Alabama takes great pride in its commitment to discovery, creative inquiry, and research innovation. I offer my gratitude and thanks to all the faculty members featured in *Profiles in Excellence* and hope all the friends and supporters of UNA enjoy reading the accomplishments and activities highlighted here.

Sincerely,

Ross C. Alexander, Ph.D.

Provost and Executive Vice President for Academic Affairs

Professor of Political Science

OUTSTANDING TEACHING

Dr. James Jerkins

Dr. James Jerkins joined the UNA computer science faculty in the spring of 2007. Some of the courses he has taught include introductory computing, computer programming, information security, cryptography, and artificial intelligence. Dr. Jerkins is a Certified Information Systems Security Professional (CISSP).

He worked in the entertainment industry for several years as a theatrical technical director and designer. He also has several years' experience as a broadcast engineer and hosted his own commercial radio talk show. In 2008, Dr. Jerkins took a sabbatical at NASA's Marshall Space Flight Center and worked with the team developing the flight software for NASA's Space Launch (SLS) vehicle.

Dr. Jerkins says that teaching happens both inside and outside of the classroom. He believes that undergraduate research equips UNA students with a competitive edge in both industry and graduate studies. Dr. Jerkins has also been instrumental in several undergraduate research initiatives at UNA, including co-founding and co-sponsoring the Math/Computer Science Undergraduate Research Team.

Q: You have a strong philosophy when it comes to undergraduate research. How has this been a part of your own academic career?

A: I think undergraduate research is a way that students can distinguish themselves. It's something above and beyond what they have to do to complete their degree, so it's more than just the minimal requirement. It also shows that they have participated in a project where they had to use the scientific method and apply what they learned in their undergraduate program in order to carry a research project to completion. It's something nice they can talk about in an interview with prospective employers. Working with students in undergrad research projects is one of the reasons I chose to become

a university faculty member and to share my passion for Computer Science and being informed.

Q: What prompted you to establish the Math/Computer Science Undergraduate Research Team? How do you see it evolving?

A: It's an opportunity for students and faculty to get together and talk about their research projects. Each week, the students stand up in front of each other and discuss what their research has been, what they have done in their research, and what they plan to do over the next week. It's an opportunity for faculty and students to hear about the other research projects and help each other. It's important for students to be able to distinguish themselves and go above and beyond the standard undergrad curriculum.

Q: Why is STEM education such a vital part of the curriculum, particularly at the P-12 level?

A: First I want to be clear that STEM is not more important, or less important, than other disciplines or subjects that students should be exposed to. They're all super important. Students need to be exposed to all of them so they can be informed and engaged and influential members of their communities. Lots of difficult, thorny problems are left to solve, and, for those problems, you need strong analytical skills, strong reasoning skills, and the ability to generalize, to abstract, and to use science and reasoning. All of those skills and attributes are essential. It is the key way to do that. For that, it is important we expose those P-12 students to these principles throughout their education life cycle.

Q: How does UNA allow you to incorporate your passion for undergraduate research into your academic career?

A: The University is primarily a teaching university; we're not primarily a research university, so we really don't have the types of resources typical research universities have. So I don't have money or course releases to support the research for the students. We don't have those types of things to support research students, but I do have the support from my colleagues, my department chair, and my dean. The University is allowing me to incorporate my belief that undergraduate research is important for students by allowing me to do it.

Q: Finally, what does it mean to you to have been honored with this award?

A: It is an honor. The reason I joined the University faculty was so that I can share my passion about computer science with the next generation of computer scientists. It's always nice to be recognized by your peers, colleagues, and your supervisors for doing good work. It feels nice to be recognized.

OUTSTANDING SCHOLARSHIP/RESEARCH

Dr. Ryan Zayac

A native of Parma, Ohio, Dr. Zayac earned a Bachelor of Science degree in psychology from Allegheny College in Pennsylvania. He received his Ph.D. in experimental psychology at Auburn University with a concentration in applied behavior analysis. Participating in Auburn's Teaching Fellows program quickly solidified his desire to pursue a career in academia.

After a brief stay at Central Washington University, Dr. Zayac was excited to return Alabama, accepting an assistant professor position at UNA in 2010. It was here that his love for student-faculty research collaboration truly blossomed. As a teacher-scholar, his focus has always been to improve individual's lives, especially his students.

"In my opinion, my research agenda does have a unifying and singular focus: to promote undergraduate participation in research by making myself available and open to my students' interest and ideas," he said. "I have found that when students have ownership in a particular topic, they are more than motivated to put forth the sustained effort necessary to see a research project through to completion."

Dr. Zayac's recent research has focused mainly on the Scholarship of Teaching and Learning (SoTL), and in the last five years under his mentorship, Dr. Zayac's students were awarded almost \$20,000 in internal and external research grants, co-authored more than 25 international/national/regional presentations, and published five articles.

Q: At what point in your career did you realize that student-faculty research was a passion of yours?

A: During graduate school and my first two years working at another university, my interest in research was secondary to my love for teaching. Upon arriving at UNA in 2010, I was immersed in a department where my colleagues' passion for promoting student-faculty research served as a catalyst for the development of my own research agenda.

Q: How has that influenced and informed your career since? And where do you see it taking you in the future?

A: Our department's approach to student-faculty research really transformed the way I approach student mentorship. For most projects, I incorporate several undergraduate students using a team-based approach. Under my guidance, upper-level students with prior research assistant experience take the lead on the study and help mentor other team members. This approach had increased my ability to work on multiple projects simultaneously and provided numerous students—almost 75 in the last five years—the opportunity to gain valuable research skills while actively contributing to the development of new knowledge in the field. As I transition into a new role as an associate dean for the College of Arts and Sciences, my goal is to keep an active research agenda and continue to aid our students' development as future scientist-practitioners.

Q: What are some of the most compelling research topics you've worked on with students?

A: One of the most enjoyable projects that I have recently worked on combined several of my passions: teaching, research, and travel. During an education abroad program focused on the history of psychology to Germany, Austria, and Switzerland, my students and I conducted a study examining the impact of a cultural scavenger hunt on the development of intercultural competencies. During the cultural scavenger hunt, UNA students were given a series of questions focused on the host city/country and were asked to find the answers using local resources, such as speaking with residents or visiting culturally/historically significant sights. The immersion process was also facilitated by having local university students and faculty serve as guides during the activity. When compared to a control group, our findings suggest that the use of a cultural scavenger hunt may assist participants in actively engaging in the local culture and facilitate the initial development of intercultural competencies.

Q: What do you enjoy about teaching and guiding student research at UNA?

A: It certainly sounds cliché, but sharing in a student's excitement when they present our research at conferences for the first time or watching them smile with pride as they turn the pages of their first publication are what really motivates me as a mentor.

Q: Finally, what does it mean to you to receive this award?

A: I am so appreciative of being recognized with this award because it not only recognizes the work that I have been doing, but it acknowledges all of the wonderful work that our psychology students and my colleagues have been producing. Research is a team effort, so this award is as much theirs as it is mine.

OUTSTANDING SERVICE

Dr. Rachel Winston

Born and raised in Tuskegee, Dr. Rachel Winston graduated from the University of North Alabama and earned a Bachelor of Science in Nursing. For many years, she worked as a staff nurse and a charge nurse. She then went on to graduate from the University of South Alabama and earned her Master's degree in Nursing Education and a Doctorate in Nursing Practice. Dr. Winston specialized as a Clinical Nurse Specialist: Adult-Gerontological.

Dr. Winston is an associate professor in the UNA Anderson College of Nursing and Health Professions (ACONHP), and she is a faculty advisor for the Student Nurses Association (SNA). Dr. Winston says that she believes in the education and empowerment of others, and, because of that, she has spoken at multiple engagements focusing on topics that include "Post-Graduation Best Practices" at the HRSA Health Workforce Workshop and "Exposure & Perspectives" at the Shoals Area Committee on Employment of People with Disabilities.

Q: You have a history of service both to your institution as well as to your community. What calls you to serve?

A: I believe that we only have one life, and it is short-lived. That means we only get a small window of time to create a lasting effect on the world around us. I choose to serve others as a means to positively impact the world around me. Furthermore, I am a Christian, and I strive to mirror Christ in my everyday life. Serving others gives me the opportunity to focus on what Christ focused on ... people. And I have found that I am my best self when I follow in His footsteps.

Q: Of the things you've done, what would you say has been the most meaningful to you personally and professionally?

A: I am the director of the ACONHP Respite Program. The respite program provides parents a "break" from the stress

associated with caring for a special needs child. It also provides engaging social activities for children with special needs and their siblings. The program has a special place in my heart because my youngest daughter, Ava Grace, was diagnosed with cerebral palsy shortly after she was born. Though caring for her comes with its own set of challenges, she is an amazing kid who has a smile brighter than sunshine. Ava Grace is my muse, and the respite program allows me, the UNA nursing students, and the volunteers to give these parents what every parent needs ... a break. It also gives us the opportunity to engage with some of the funniest, happiest, silliest, most affectionate, most amazing children on the planet! I see each child in the respite program just like I see my Ava Grace ... vulnerable, valuable, and worthy of all the love we can give.

Q: Why did you choose nursing as your profession? How does that answer your need to serve?

A: I have found that I have an abiding desire to care for people when they are at their weakest. It is a part of my nature and a part of my character. When I realized this about myself I knew nursing was a perfect fit. As a nurse, I get to meet people at their weakest points and guide them through some of the toughest times of their lives. Nursing allows me to serve others by giving myself, my emotions, my compassion, my knowledge, and my skill. I am honored to be able to serve others in this way.

Q: How do you see your career evolving from here, given so many benchmarks you've reached and achieved?

A: I started out as a staff nurse in Huntsville Hospital, and I am now a tenured nursing faculty member at UNA. In the hospital setting, I had a passion to be an encourager, a cheerleader, a supporter, arms to laugh in, or a shoulder to cry on. As an educator, I have found that my students need these same things. Patients, students, and professionals want someone who has words that can be trusted and actions that others can depend on. I strive to be that person. So, even as my career may evolve over the years, the ways in which I serve others will remain the same.

Q: Finally, Dr. Winston, what does winning this award mean to you?

A: I have a desire to positively impact the world around me. We all can choose to make big and small differences in the lives of the people around us. And that is commendable. But this award means that I have made a difference that was big enough to be noticed by people who are not in my direct circle of influence. Being acknowledged with this award shows how connected we all are and that our actions can affect the people we see and the people that see us. And it is nice to be seen.

Dr. Michelle Nelson

Dr. Michelle Nelson is an associate professor in the Anderson College of Nursing and Health Professions (ACONHP). She received her baccalaureate degree in nursing from the University of North Alabama, her master's degree from the University of Alabama, and earned her Ph.D. in nursing from the University of Wisconsin-Milwaukee. Dr. Nelson has been a registered nurse for 25 years.

Today, Dr. Nelson serves as the director of the Post-Licensure Nursing and Health Professions Programs and teaches in the post-licensure nursing program. She quickly realized the impact academic advising had on students, and, during her time at UNA, she has had the opportunity to advise a diverse group of students.

"I believe the combination of all of these experiences has helped mold me into the advisor that I am today," she said.

Dr. Nelson believes that a critical first step in the academic advisement process is for the student to feel that they are important, not only to her, but to the ACONHP and to UNA.

Q: What prompted you to study nursing and then to become a nurse educator?

A: I became a nurse because I wanted a career that would challenge me while also allowing me to have an impact on the lives of others. Early in my nursing career I had the opportunity to serve as a mentor and preceptor to a number of UNA nursing students. I realized through those experiences that I had a passion for teaching and that led me to pursue becoming a nurse educator.

Q: How did that path lead you to advising?

A: I was mentored early in my career regarding the importance of academic advising. Everyone in the ACONHP realizes how important advisement is to student success. I really

don't think you can be an educator and not also be an advisor. I consider advising to be a form of teaching.

Q: You share some of your advising philosophy as part of your biography; tell me a bit more about your developmental academic advising approach.

A: The developmental academic advising approach is deeply rooted in a close student-advisor relationship. This approach helps me appreciate the value of the interactions I have with my students that occurs outside the boundaries of the classroom. Yes, books and lectures are important, but equally as important are those interactions we have with our students that encourage aspects of education that cannot be attained in the classroom. I believe that a great deal of this occurs through the process of academic advising.

Q: You also speak about returning students, adult learners who are back to get that next degree. How does that advising process differ, and why does it matter?

A: I have found that it can be especially challenging for students returning to continue their education after having been in the workforce for many years. This matters because these students are often working full-time while also juggling family and school demands. These students need someone to help them navigate the college experience while also achieving their goal of graduating in the shortest amount of time possible.

Q: Finally, Dr. Nelson, congratulations on this award. What does winning it mean to you?

A: Winning this award is a tremendous honor. There are so many wonderful academic advisors at UNA, and I am truly grateful to be a part of such an amazing group.

OUTSTANDING GRADUATE STUDENT TEACHING/ASSISTANCE

Ms. Katie Mauldin

Katie Mauldin is from Crane Hill, Alabama. She has been a registered nurse for five years and works at North Alabama Medical Center in the nursery, special care nursery, and the post-partum unit. She was a pediatric clinical instructor for UNA for one year, and, in August, started her second year working in the nursing simulation lab. She is in UNA's Master of Science in Nursing program and is two courses shy of completing the Teaching/Learning track.

During the spring semester, Katie was a preceptor for two UNA nursing students. She really enjoys getting to show them what nurses in the nursery/special care nursery do.

Q: What drew you to nursing?

A: There are many wonderful things about nursing, but the main reason I wanted to become a nurse was so that I could help care for other people.

Q: Tell us about your experiences in the nursing field, especially in the nursery?

A: In my job, I get to attend deliveries and help take care of mothers and newborn babies. It is such an honor and privilege to be able to witness the miracle of life as babies are born into the world. I love meeting new people and working as a nurse; you are constantly meeting many people. So many patients that I have cared for have become lifelong friends.

Q: How is UNA preparing you for your career through the master's program?

A: I received my BSN degree from the University of North Alabama. I loved the nursing program and the teachers so much that I decided to get my MSN degree through UNA as well. UNA has helped to prepare me by teaching me the fundamentals of nursing education and now, as a graduate student in the teacher learning track, I am learning different techniques and information on how to teach nursing education to future nurses.

Q: Teaching is important to you; tell us about some of the teachers and mentors you've had who have influenced your career.

A: The instructors at UNA are absolutely phenomenal! Even though they are my teachers, I have become friends with many of them and talk to some of them on a weekly basis. I know I could call or reach out to them at any time, and they would willingly help me to the best of their ability. The faculty and staff at the ACONHP truly care about their students and want them to succeed. I have truly learned from the best, and I am very proud to have received my BSN and soon, my MSN, from the University of North Alabama.

Q: Finally, what does winning this award mean to you?

A: Winning this award was truly an honor! It was such a nice surprise to even be nominated. I will strive to do my best and will work hard teaching students, so they can be successful in the medical field and make a difference in the lives of their patients.

OUTSTANDING GRADUATE STUDENT SCHOLARSHIP

Mr. Ryan Benner

Originally from Colorado, Ryan Benner attended Adams State University where he earned a Bachelor of Arts in Sport Management. After graduating in the fall of 2018, Ryan immediately enrolled in the Kinesiology graduate program at the University of North Alabama.

While working toward his degree, he took on the role of Graduate Research Assistant for the Department of Kinesiology. During that time, Ryan would see four research articles accepted for publication to the *Journal of Physical Education, Recreation and Dance*, and *The Physical Educator*. Ryan also completed research for two separate 2019 conferences, the College Sport Research Institute and the Argetsinger Symposium.

In his final semester at UNA, Ryan received the Graduate Student Scholarship Award for his completed work for the 2019-2020 academic year.

Q: What prompted your interest in sport and recreation management?

A: I grew up watching and playing every type of sport. That love and passion grew as I aged, and I knew I wanted to pursue a career in the sport industry. This degree provides me the opportunity to work in various areas, including facility management and inside sales.

Q: How do you feel your time at UNA in the Sport and Recreation Management graduate program prepared you for next steps?

A: The graduate program provided a bigger view and a greater

in-depth knowledge of the sport industry that will easily benefit me when I start my career in the near future.

Q: Speaking of, what are those next steps? A Ph.D.? Real-world experience?

A: I want to find a job working for a sport organization. This could either be for a team, club, or non-profit organization. I just want to find the best opportunity and experience. Right now, I do not have a desire to pursue a Ph.D., but you never know what the future holds.

Q: Tell us a little about the conferences you attended. Why is that significant in your education?

A: The College Sport Research Institute was an exciting week and an event I will not forget. Having the opportunity to present your work to other members of your field and see their research is one-of-a-kind. We get to see how our field and industry is growing through research, and it is great to learn and build upon your education.

Q: Finally, Ryan, what does winning this award mean to you?

A: It means a lot. UNA did a lot for me in the short time I was there, and I was able to accomplish a great amount because of that. Seeing that my work was recognized was truly special to me, and I was honored to receive the award.

OUTSTANDING GRADUATE STUDENT SERVICE

Ms. Ashley Massey

Ashley Massey is a graduate student at the University of North Alabama studying English Literature with an emphasis on Southern American Literature. She is also the graduate assistant in Prison Studies and an editor for the *UNA Lights and Shadows* literary magazine. Recently, she helped organize the "Project Hope to Abolish the Death Penalty Papers" archive, which is housed in the University's Archives and Special Collections. Ashley is also an alumna of the Inside-Out Prison Exchange Program and member of the Restorative Justice for Alabama think tank.

Ashley owns a small business, and she is a designer for Flatwoods Fawn jewelry brand, a cattlemaster, and a volunteer with "Enough is Enough Tennessee." She is also a menstrual equity advocate and a founder of Law Co Cycle. Ashley is developing a remedial writing class that will be taught at Limestone Correctional Facility.

Q: Tell me about your experience with the Inside-Out Prison Exchange program and how that has been a part of your overall activism.

A: Taking part in the Inside-Out Prison Exchange as a student at UNA led to a shift where my heart felt called to contribute in academia. I think it is so important for higher education to reach beyond to places where people are discarded and forgotten about, like prison. My experience in the program was not always easy as someone who has been personally impacted by incarceration. It was emotionally difficult at times when our class discussions unearthed memories and feelings I thought I had dealt with a long time ago. Now, I feel like I can channel those experiences and my ability to empathize with incarcerated folks into the work that I want to do. I used to think my activism was at odds with my work. I see now the importance of being able to distinguish who is held accountable for their actions and who isn't.

Q: You're a graduate student in English Literature; why Southern American Literature as an emphasis?

A: I focus on Southern American Literature because I want to be able to understand my experiences as a Southern woman and the experiences of Southerners around me in a deeper way. I'm most interested in studying outside the canon and seeking out the stories of the U.S. South that are untold or unheard. I am particularly interested in how the South views justice and how mass incarceration impacts Southern cultures. As far as activism goes, organizing in the rural South is incredibly difficult, but studying about Southern beliefs, stereotypes, etc. has helped me better understand those difficulties and how we can work to change them.

Q: You're very busy with a number of projects, both personal and professional. How will your degree prepare for next steps?

A: Studying literature and working as the Graduate Assistant in Prison Studies have been a perfect pairing to help me get to the next steps in my academic career. After completing my graduate degree, I hope to teach at the college level in non-traditional environments like prison. Next year, I plan on completing training to become an Inside-Out Prison Exchange Program instructor, and I hope to help Dr. [Katie] Owens-Murphy grow the program at Limestone Correctional. I would also love to see the program expand in Alabama and Tennessee. This coming year, I will teach a remedial writing course that will help those who are incarcerated at Limestone become better prepared to take college-level classes.

Q: Speaking of next steps, what do you see in your future?

A: After graduating, I plan on continuing to juggle my jewelry design business, farm life, advocacy, and, hopefully, teaching in prison. I have been in college since 2012, and subsequently some areas of my life have fallen by the wayside. One of my long-term goals I will tend to after graduation includes expanding our homestead and making our farm eco-friendlier. After graduation, I also have plans to expand the reach of an organization I started that provide free menstrual products to folks in Lawrence County, Tenn.

Q: Finally, Ashley, what does winning this award mean to you?

A: Winning this award was honestly such a surprise. When I first transferred to UNA as an undergraduate, I was a non-traditional student, and I honestly planned not to become involved on campus. However, becoming involved on campus and in the greater community has enriched my education. I want to acknowledge that I would not be the student or the person I am without the help and support of from The Center for Women's Studies and the English Department. I can't imagine my college experience without their guidance and encouragement. Receiving this award means that the work being done in the Inside-Out Prison Exchange program will hopefully reach more people, and I also hope people will be inspired to visit the "Project Hope to Abolish the Death Penalty Papers" archive.

BOOK CHAPTER

Richards, K. A., Harkness, Z. A. (2020). "Engaging and Enriching ESL Students through Globalized Partnerships in Higher Education." *Internationalization in Action: Leveraging Diversity and Inclusion in Globalized Classrooms*, 27-44. Peter Lang Publishing.

Kathryn B. Wardell, Ph.D., Assistant Professor of English

JOURNAL ARTICLE

Wardell, K. B. (2019). "Fooling with Fashion: Costume as Comic Catalyst in Joss Whedon's The Avengers." *Slayage: The Journal of Whedon Studies*, 120-150.

PRESENTATION

Wardell, K. B. (2019). "Rivers Can Be Very Sinister Places: Alfred Hitchcock Takes a Satirical, Sinister London Crime Cruise in Frenzy." Gateway to Cinema and Media Studies, SCMS/University of Notre Dame/Kings College, London, United Kingdom.

PUBLICATIONS *and* PRESENTATIONS at PROFESSIONAL MEETINGS

Daniel E. Williams, M.A., *Adjunct Faculty in English*

BOOK CHAPTER

Melvin, S. G., Williams, D. (2020). "It Troubles Almost Any Thinking Person": Conspiracy Theories, Firestarter, and a Social Justice Curriculum." *Beyond the Frontier: Innovations in First-Year Composition* (vol. 3). Cambridge Scholars Publishing.

Tammy S. Winner, Ph.D., *Associate Professor of English*

BOOK

Winner, T. S., Rausch, R. M., Ogun, J. A., Monteiro, P. A. (2019). "A Traveler's Palate: A collaboration of the University of North Alabama's students in Culinary Arts, Photography, and Technical Writing." Independently published. Amazon.

PRESENTATION

Winner, T. S. (2019). "Bridging Cultural Views of Learners with Disabilities in the Bahamas: Awareness, Ability and the Language of Disability in the Bahamas." Every Child Counts Board Meeting, Marsh Harbour Campus, Bahamas.

Karla V. Zelaya, Ph.D., *Assistant Professor of English*

PRESENTATION

Bernier, J. W., Zelaya, K. V., McCall, J. R. (2020). "We Are All Bound Up Together: Frances Ellen Watkins Harper's Art and the Politics of Voting." *Voting Rights in America Series*, Florence Public Library, Florence, AL.

Foreign Languages

Alejandra Alvarado-Brizuela, Ph.D., *Assistant Professor of Foreign Languages*

PRESENTATIONS

Alvarado-Brizuela, A. (2020). "Mamá ya no amasa la masa: evolución del personaje femenino en la literatura costarricense." KFLC: The Languages, Literatures, and Cultures Conference, University of Kentucky, Lexington, KY.

Alvarado-Brizuela, A. (2020). "Promoviendo la justicia social a través de la literatura en una clase de español intermedio." 12th Biennial Northeast Regional Conference, American Association of Teachers of Spanish and Portuguese Northeast Region, Wellesley College, Wellesley, MA.

Stephanie L. Coker, Ph.D., *Assistant Professor of Modern Foreign Languages*

JOURNAL

Coker, S. L. (2019). "Happy as The Lark: Broadway Presents Joan of Arc." *The French Review of American Studies (RFEA: Revue Française d'Études Américaines)*, 4 (161), 72-83.

PRESENTATION

Coker, S. L. (2019). "Profaning the Pucelle: Voltaire Comments on the Body Politic." 54th International Congress on Medieval Studies, International Joan of Arc Society, Kalamazoo, MI.

Rebecca A. Linam, M.A., *Adjunct Faculty in Foreign Languages*

PRESENTATION

Bates, L. W., Hudiburg, R. A., Vance, C. P., Linam, R. A., Martin, C. E., Hill, S. M., Kersen, T. M. (2020). "Religious Expectations and Religious Behaviors on the Camino de Santiago." Annual meeting of the Society for the Scientific Study of Religion, St. Louis, MO.

Andrea F. Nate, Ph.D., *Assistant Professor of Foreign Languages*

PRESENTATION

Nate, A. F. (2019). "Lozana's Medicine Kit: Miracle Drugs and Blood Purity in Francisco Delicado's Writings." Sixteenth-Century Society of America Conference, St. Louis, MO.

Lauren G. J. Reynolds, Ph.D., *Assistant Professor of Foreign Languages*

PRESENTATION

Reynolds, L. G. J. (2020). "Notorious Girlfriends: Female Communities, Resistance, and Survival in Luis Alberto Urrea's *Into the Beautiful North* and Cary Fukunaga's *Sin nombre*." Southeastern Council of Latin American Studies, Austin, TX.

Claudia P. Vance, Ph.D., *Professor of Foreign Languages*

PRESENTATION

Bates, L. W., Hudiburg, R. A., Vance, C. P., Linam, R. A., Martin, C. E., Hill, S. M., Kersen, T. M. (2019). "Religious Expectations and Religious Behaviors on the Camino de Santiago." Annual meeting of the Society for the Scientific Study of Religion, St. Louis, MO.

Geography

Jian Chen, Ph.D., *Assistant Professor of Geography*

JOURNALS

College of Arts and Sciences

Biology

Jacob W. Dittel, Ph.D., *Assistant Professor of Biology*

GRANT

2019-2020: Dittel, J. W., Sanchez, D, Ellsworth, L.M. "The Role of Small Mammals in Post Treatment Recovery of Mule Deer Habitat in Juniper-Invaded Sagebrush Steppe Ecosystems." Oregon Department of Fish and Wildlife.

Chemistry and Industrial Hygiene

Sara L. Johnson, Ph.D., *Assistant Professor of Chemistry and Industrial Hygiene*

GRANT

2018-2019: Johnson, S. L. "Science Café Mini-Grant." American Chemical Society.

Leshan J. Kimbrough, Ph.D., *Assistant Professor of Chemical and Industrial Hygiene*

GRANT

2020-2022: Kimbrough, L. J. "Occupational Safety and Health Training Project Grant in Industrial Hygiene." National Institute of Occupational Safety and Health, CDC.

Communications

Beth H. Garfrerick, Ph.D., *Associate Professor of Communications*

GRANT

2020: Garfrerick, B. H. "North Alabama Lions Clubs Video Project." North Alabama Lions Clubs and Lions Clubs International.

HONORS/AWARDS

2019: Garfrerick, B.H. First Place, PR Education Award, Southern Public Relations Federation.

English

Jason R. McCall, M.F.A., *Assistant Professor of English*

HONORS/AWARDS

2019: McCall, J.R. PEN America Writing for Justice Fellowship.

Katie Owens-Murphy, Ph.D., *Associate Professor of English*

GRANT

2020: Owens-Murphy, K. "Alabama Humanities Foundation Major Grant." Alabama Humanities Foundation.

Tammy S. Winner, Ph.D., *Associate Professor of English*

GRANT

2019: Winner, T. S. "NASA Faculty Fellowship." NASA/MSFC.

Foreign Languages

Stephanie L. Coker, Ph.D., *Assistant Professor of Foreign Languages*

GRANT

2019: Coker, S. L. "Tournées Film Festival Grant." French American Cultural Exchange.

HONORS/AWARDS

2019: Coker, S. L. Featured Teacher (French), American Association of Teachers of French, Alabama Chapter.

Geography

Jian Chen, Ph.D., *Assistant Professor of Geography*

GRANTS

2017-2022: Raghavan, V., Chen, J., Gottumukkala, R., Borst, C., Wu, X.

"Phase II Renewal: Center for Visual and Decision Informatics." National Science Foundation.

2018-2019: Chen, J., Gottumukkala, R., Lavergne, J., Raghavan, V., Benton, R. "Ontology-based Fast Semantic Indexing for Structured and Unstructured Data in Health Care." NSF/UCRC CVDI IAB.

Michael J. Pretes, Ph.D., *Professor of Geography*

HONORS/AWARDS

2019: Pretes, M. J. "Excellence in Undergraduate Mentoring Award." Southeast Division of the American Association of Geographers.

History

Julia W. Bernier, Ph.D., *Assistant Professor of History*

GRANT

2019: Bernier, J. W. "Scholarly Research Fellowship." Kentucky Historical Society.

HONORS/AWARD

2019: Bernier, J. W. "Scholarly Research Fellowship," Kentucky Historical Society.

Brian D. Dempsey, Ph.D., *Assistant Professor of History*

GRANT

2018-2020: Dempsey, B. D., Quiros, A. L. "Civil Rights Struggle in the Shoals." National Parks Service.

Ansley L. Quiros, Ph.D., *Assistant Professor of History*

GRANTS

2018-2020: Dempsey, B. D., Quiros, A. L. "Civil Rights Struggle in the Shoals." National Parks Service.

2018-2020: Dempsey, B. D., Babst, H., Kersteins, A., Roberts, A., Quiros, A. L. "Civil Rights Struggle in the Shoals." National Parks Service.

HONORS/AWARDS

2019: Quiros, A. L. "Excellence in Research Using the Holdings of the Archives." Georgia Historical Records Advisory Council.

2019: Quiros, A. L. "Distinguished Alumni Award," Whitefield Academy.

Mathematics

Cynthia L. Stenger, Ph.D., *Professor of Mathematics*

GRANTS

2019-2022: Stenger, C. L., Truitt, J., Stovall, J. E. "Collaborative Research: Collaborative Partnership to Teach Mathematical Reasoning through Computer Programming (CPR2)." NSF.

2019: Jerkins, J. A., Stenger, C. L. "UNA Summer Stem Camps 2019." VWR Charitable Foundation.

Jessica E. Stovall, Ph.D., *Associate Professor of Mathematics*

GRANT

2019-2022: Stenger, C. L., Jenkins, J. T., Stovall, J. E. "Collaborative Research: Collaborative Partnership to Teach Mathematical Reasoning through Computer Programming (CPR2)." National Science Foundation.

Music

Joseph P. Gray, D.M.A., *Visiting Faculty in Music*

GRANT

2019-2020: Gray, J. P. "Principal Trumpet." Shoals Symphony Orchestra.

Daniel B. Stevens, D.M.A., *UNA Provost Fellow, Professor of Music*

GRANT

2014-2020: Stevens, Daniel B. "Cumulative Sponsorships, Donations, Grants, and Ticket Revenues." Shoals Symphony Orchestra.

GRANTS, HONORS, and AWARDS

Physics and Earth Science

Melissa M. Driskell, Ph.D., Associate Professor of Geology

GRANTS

2020-2024. Driskell, M. M., Burkhalter, C. L., Paulk, A. L. "Creating STEM Opportunities for High-Achieving Rural Alabama Students." National Science Foundation.

2020-2024. Blackstone, T., Driskell, M., Paulk, A., Burkhalter, C. "Creating Opportunities and Motivating Progress for Alabama STEM Success: COMPASS Scholars Program." National Science Foundation.

2015-2019. Moore-Driskell, M. M., Christensen, D. "Basin-to-slab imaging of the Alaskan subduction zone." National Science Foundation.

Brenda H. Webb, Ph.D., Department Chair and Professor of Physics and Earth Science

GRANT

2019-2020. Webb, B. H. "Project Title Meeting a National Goal through STEAM Education: CMS STEAM Exhibit Development and Outreach Coding Program." Children's Museum of the Shoals.

Sociology and Family Studies

Amber L. Paulk, Ph.D., Professor of Sociology and Family Studies

GRANT

2020-2024. Driskell, M. M., Burkhalter, C. L., Paulk, A. L. "Creating STEM Opportunities for High-Achieving Rural Alabama Students." National Science Foundation.

Visual Arts and Design

Miriam H. Kirch, Ph.D., Professor of Art History

GRANT

2020. Kirch, M. H. "Conference Funding." Samuel H Kress Foundation.

College of BUSINESS

Computer Science and Information Systems

Michael S. Banks, Ph.D., Associate Professor of Computer Science and Information Systems

GRANT

2019-2020. Watson, J. S., Banks, M. S., Besmer, A. "Longitudinal Study of Security on the Web." Winthrop University.

Janet T. Jenkins, Ph.D., Associate Professor of Computer Science and Information Systems

GRANT

2019-2022. Stenger, C. L., Jenkins, J. T., Stovall, J. E. "Collaborative Research: Collaborative Partnership to Teach Mathematical Reasoning through Computer Programming." National Science Foundation.

James A. Jerkins, Ph.D., Associate Professor of Computer Science and Information Systems

GRANTS

2017-2020. Jerkins, J. A. "The Alabama Alliance for an Inclusive Middle Grades Computer Science Preparation through Makerspaces in the Alabama Black Belt Region (CS Makers)." National Science Foundation.

2019. Jerkins, J. A., Stenger, C. L. "UNA Summer Stem Camps 2019." VWR Charitable Foundation.

Daniel A. Ray, Ph.D., Associate Professor of Computer Science and Information Systems

HONOR/AWARD

2019. Faculty Marshall, The University of Virginia's College at Wise.

Jason S. Watson, Ph.D., Assistant Professor of Computer Science and Information Systems

GRANT

2019-2020. Watson, J. S., Banks, M. S., Besmer, A. "Longitudinal Study of Security on the Web." Winthrop University.

Economics and Finance

John D. Barrett, Ph.D., Department Chair, LaGrange Eminent Scholar of Business, Professor of Quantitative Methods

GRANTS

2019-2020. Fadden, J. B., Barrett, J. D. "Project ASCEND (Agile Strategies Connecting Enterprises to New Demand)." Shoals Business Incubator.

2018-2019. Barrett, J. D. "Institute Fellowships." Daniel Foundation.

Tanja F. Blackstone, Ph.D., Professor of Economics

GRANT

2020-2024. Blackstone, T., Driskell, M., Paulk, A., Burkhalter, C. "Creating Opportunities and Motivating Progress for Alabama STEM Success: COMPASS Scholars Program." National Science Foundation.

Management and Marketing

Janyce B. Fadden, M.B.A., Director of Strategic Engagement, Lecturer in Management and Marketing

GRANTS

2019-2020. Fadden, J. B., Barrett, J. D. "Project ASCEND (Agile Strategies Connecting Enterprises to New Demand)." Shoals Business Incubator.

2016-2019. Fadden, J. B. "Shoals Shift Project, Partnerships for Opportunity and Workforce and Economic Revitalization." Shoals Entrepreneurial Center.

College of EDUCATION and HUMAN SCIENCES

Kilby

Lori K. Alford, M.Ed., Instructor, Supervising Teacher

GRANT

2019-2020. Kirkman, E. M., Frederick, M., Alford, L. "Alabama Pre-K - 3rd Grade Integrated Approach to Early Learning Competitive Grant." Alabama Department of Early Childhood Education.

Misty C. Buerhaus, M.Ed., Instructor, Library Media Specialist

GRANTS

2019-2020. Kirkman, E. M., Buerhaus, M. C. "AMSTI Robotics Grant." AMSTI.

2019-2020. Kirkman, E. M., Buerhaus, M. C. "TVA STEM Grant." Tennessee Valley Authority.

Marisa B. Frederick, Ed.S., Assistant Professor, Supervising Teacher

GRANT

2019-2020. Kirkman, E. M., Frederick, M., Alford, L. "Alabama Pre-K - 3rd Grade Integrated Approach to Early Learning Competitive Grant." Alabama Department of Early Childhood Education.

Eric M. Kirkman, Ed.D., Assistant Professor, Director

GRANTS

2019-2020. Kirkman, E. M., Buerhaus, M. C. "AMSTI Robotics Grant." AMSTI.

2019-2020. Kirkman, E. M., Buerhaus, M. C. "TVA STEM Grant." Tennessee Valley Authority.

2019-2020. Kirkman, E. M., Frederick, M., Alford, L. "Alabama Pre-K - 3rd Grade Integrated Approach to Early Learning Competitive Grant." Alabama Department of Early Childhood Education.

Kinesiology

James M. Green, Ph.D., *Professor of Kinesiology*

GRANT

2019-2020. Killen, L. G., Green, J. M. "Enjoyment and Perceived Duration between Standard and Interactive Exercise Bikes." Northwest RC&D.

Lauren G. Killen, Ph.D., *Assistant Professor of Kinesiology*

GRANT

2019-2020. Killen, L. G., Green, J. M. "Enjoyment and Perceived Duration between Standard and Interactive Exercise Bikes." Northwest RC&D.

Teaching, Learning, and Leadership

Terri L. Garrison, Ph.D., *Assistant Professor of Elementary Education*

GRANTS

2019-2020. Garrison, T. L. "Creative Curriculum Preschool Curriculum Kit." Alabama Department of Early Childhood Education.

2019-2020. Garrison, T. L. "Creative Curriculum APT." Alabama Department of Early Childhood.

Rebecca K. Hopkins, Ph.D., *Assistant Professor of Elementary Education*

GRANTS

2019. Hopkins, R. K. "Very Special Arts Festival." Junior League of the Shoals.

Lorie M. Johnson, Ph.D., *Assistant Professor of Elementary Education*

GRANTS

2019. Johnson, L. "We Rocked the World: Exploring Alabama's Bicentennial Music Heritage with K-6 Teachers." Alabama Humanities Foundation.

Anderson College of NURSING and HEALTH PROFESSIONS

Nursing - Graduate

Wendy A. Darby, Ph.D., *Professor of Nursing*

GRANTS

2020-2021. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." United States Department of Health and Human Services Workforce.

2019-2020. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L.

"Nurse Faculty Loan Program." Health Resources and Services Administration Workforce.

Tera R. Kirkman, Ph.D., *Professor of Nursing*

GRANTS

2020-2021. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." United States Department of Health and Human Services Workforce.

2016-2020. Kirkman, T. R., Winston, R. M. "Scholarship for Disadvantaged Students." GOV-Health Resources and Services Administration.

2019-2020. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." Health Resources and Services Administration Workforce.

Ellen P. Williams, Ph.D., *Associate Professor of Nursing*

GRANTS

2020-2021. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." United States Department of Health and Human Services Workforce.

2019-2020. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." Health Resources and Services Administration Workforce.

Nursing - Undergraduate

Tabitha L. Blasingame, D.N.P., *Assistant Professor of Nursing*

GRANTS

2020-2021. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." United States Department of Health and Human Services Workforce.

2019-2020. Darby, W. A., Kirkman, T. R., Williams, E. P., Blasingame, T. L. "Nurse Faculty Loan Program." Health Resources and Services Administration Workforce.

Michelle L. Nelson, Ph.D., *Associate Professor of Nursing*

GRANTS

2020-2021. Nelson, M. L. "Workforce Opportunity in Rural Communities (WORC)." United States Department of Labor.

Rachel M. Winston, D.N.P., *Associate Professor of Nursing*

GRANT

2016-2020. Kirkman, T. R., Winston, R. M. "Scholarship for Disadvantaged Students." GOV-Health Resources and Services Administration.

College of ARTS *and* SCIENCES

English

Jason R. McCall, M.F.A., *Assistant Professor of English*
