Artistic Performances and Exhibitions.....	17
Grants and Awards	19

Profiles in Excellence gives recognition to the scholarly accomplishments of our faculty. Broadly defined those accomplishments include artistic endeavors, creative initiatives, original research, scholarly books, articles and presentations, funded grants, and/or academic services. These efforts augment scholarship at the University but also enhance the integral relationship between teaching and research. They are often an extension of research collaboration with our students and with colleagues at other institutions.

The publication of **Profiles in Excellence** affords an opportunity for the University to acknowledge the dedication and professionalism of the University of North Alabama faculty. The accomplishments reported herein are but a small part of the numerous examples of hard work contributed by the faculty on behalf of the numerous constituencies served by the University.

The mission of the University of North Alabama is broad based but gives special attention to the creation of an environment of discovery and creative accomplishment. **Profiles in Excellence** embraces that mission. To all who contribute on its behalf, thank you.

Dr. John Thornell
Vice President for Academic Affairs and Provost

RECIPIENT: ACADEMIC AFFAIRS AWARD FOR OUTSTANDING SCHOLARSHIP/RESEARCH

"Research: Opportunities to Engage Students and Enhance Teaching."

Matt Green, Associate Professor, Exercise Physiology; B.S., 1994 University of North Alabama, M.S., 1996, Middle Tennessee State University, Ph.D. 1999, The University of Alabama.

Matt Green is a tenured Associate Professor in the Department of Health, Physical Education and Recreation at The University of North Alabama. Dr. Green completed his Ph.D. at the University of Alabama in Tuscaloosa in 1999.

He joined the faculty of Western Kentucky University the fall of that year where he served as Director of the Human Performance Lab. Highlights of his five years at Western Kentucky included: early promotion, recipient of the Award for Outstanding Research/Creativity at the College and University level, and recognition as the University Physical Educator of the Year in the state of Kentucky.

While having established roots in Kentucky, Dr. Green followed the urge to work with graduate students and accepted the opportunity to return to the University of Alabama. At the University of Alabama Dr. Green entered as Associate Professor, directed the Human Performance Lab and was granted early tenure at this institution. While very happy at Alabama, Dr. Green accepted a position at UNA in 2008 to move closer to his family and his wife's family. Spring 2011 will conclude Dr. Green's third year at UNA.

Dr. Green's research has involved applied aspects of exercise physiology and human performance including studies on exercise prescription, thermoregulation, perceived exertion, blood and sweat lactate responses, interval training and ergogenic aids. In the past 12 years he has been author or co-author of over 60 research publications in various nationally and internationally recognized peer-reviewed journals. He has been an invited speaker at numerous professional conferences including the Mid-Atlantic and Central States regional American College of Sports Medicine (ACSM) Conferences and the Shanghai University of Sport in China. He is also on the editorial board for the ACSM's Health/Fitness Journal and has served as a reviewer for numerous scientific journals. Dr. Green is certified as a Health/Fitness Specialist and is a Fellow of the American College of Sports Medicine.

Dr. Green's approach to research and scholarship has two principle goals. One goal is to engage students in ongoing projects so they can gain an appreciation for the rigor involved in the scientific process. Second, he endeavors to make research a component of the professor's job which should be integrated with teaching rather than viewing the two as mutually exclusive.

Some of his proudest academic accomplishments are the multiple student authorships and co-authorships, as well as students who have moved on to success in graduate school and professionally.

Dr. Green firmly believes that excellence in his job is consistent with his Christian beliefs. While research is a major component of his profession, Dr. Green's proudest accomplishments in life are marrying his wife Staci and becoming a father to his little girl Summer.

RECIPIENT: ACADEMIC AFFAIRS AWARD FOR OUTSTANDING TEACHING

"Example isn't another way to teach, it is the only way to teach." – Albert Einstein

Linda S. Lewis, Professor of Secondary Education; B.S. Ed., 1972, Athens College; M.A. Ed. , 1997, University of North Alabama, Ed.S., 1999, University of Alabama; Ed.D., 2001, University of Alabama.

Dr. Linda Lewis is a Professor of Secondary Education and Program Coordinator for the Alternative A Graduate Program. An Alabama native, she earned an Ed.D. in Instructional Leadership and an Ed.S. in Educational Leadership from the University of Alabama, a M.A. Ed. in General Science from the University of North Alabama, and a B.S. Ed. in Mathematics and General Science from Athens College. Before joining UNA in 2005, Dr. Lewis taught high school mathematics, science, and computer courses in Limestone County and undergraduate educational technology and methods courses at Athens State University.

A teacher-educator, Dr. Lewis strives to ensure that preservice teachers will enter the professional arena with a repertoire of skills to motivate, educate, and inspire the next generation of students. She believes it is essential that future teachers do not just hear about effective, engaging instruction; they must see that instruction modeled. In her classes, students are encouraged to create activities with inexpensive, available materials and to focus on mastery of content. They are engaged in activities that are both fun and relevant. She encourages her students to "teach out of the box", not only with using different strategies and materials, but by teaming with those from other areas of expertise. Students have opportunities to blend their content areas with others and to work with fellow educators to create integrated lessons. Presentations at state and national conferences enable Dr. Lewis to model this collaboration with educators across the country and to bring back new ideas to her students.

Dr. Lewis is a teacher and a learner, both by profession and desire. For thirty-three years she has been a teacher: a teacher of children, adolescents, preservice teachers, and practicing educators. She identifies both traditional and non-traditional educational settings for her own learning, with her most beneficial learning coming from time spent in high school classrooms. Renewal comes from working one-on-one with former students in their classrooms, designing activities, setting up materials, aligning standards, managing technology, and simply working with day-to-day instruction. Dr. Lewis anxiously awaits the beginning of the next semester at the University of North Alabama.

RECIPIENT: ACADEMIC AFFAIRS AWARD FOR OUTSTANDING SERVICE

"For me the most important work that I can do is to encourage and help others to reach their full potential, it is my passion; it is what I feel is my most significant service. Although it has taken me down many paths, side streets, and even a few rabbit trails, I believe that following this passion brings worth to my life."

Marilyn B. Lee, Associate Professor of Nursing – Traditional and Chair; B.L.S, 1976, B.S.N. 1979, St. Louis University; M.S.N., 1983, University of South Carolina; Ph.D., 1996, Wayne State University.

Marilyn Lee has taught in the traditional BSN nursing department in the College of Nursing and Allied Health (CONAH) since January 2007. Before joining the University of North Alabama, Marilyn taught nursing in a variety of settings and countries.

Dr. Lee is a nursing diploma graduate of Barnes Hospital School of Nursing in St. Louis. As a new graduate nurse Marilyn worked in acute care hospital nursing and following completion of her BSN at St. Louis University she taught in the Education Department at Barnes Hospital.

Following completion of her Masters in Nursing from the University of South Carolina in Columbia, Marilyn moved to Canada where she taught nursing at McMaster University in Hamilton, ON. During her tenure at McMaster Marilyn participated in a Canadian International Development Funded Project in partnership with the Aga Khan University in Karachi, Pakistan. Marilyn spent nine years in Pakistan in both Karachi and Islamabad, working with the Aga Khan University, the government Colleges of Nursing, and the Pakistan Nursing Council. Dr. Lee assisted in the development of the first ever BSN program in nursing in Pakistan.

Marilyn earned a PhD in Nursing from Wayne State University in Detroit, in 1996 and in 1999, with the completion of the project in Pakistan, accepted a position at the University of Botswana in Gaborone where she worked with Colleges of Nursing and Health Sciences in meeting standards for affiliation with the University of Botswana. After six years in Botswana, working with colleges and departments for continuous quality improvement, Marilyn returned to teaching nursing at the University of Kwa Zulu Natal in Durban, South Africa.

Dr. Lee has served on the College of Nursing and Allied Health faculty at the University of North Alabama since 2007. In August 2009 Dr. Lee accepted the Interim Chair position for the traditional BSN department and in August 2010 accepted the Chair position. Dr. Lee co-chaired the accreditation documentation committee for the successful CCNE reaccreditation. She organized professional development sessions monthly for CONAH fulltime faculty and clinical supervisors. She is incoming Vice President of Sigma Theta Tau International Omicron Upsilon –the UNA chapter, the largest nursing honor society.

Dr. Lee serves on dissertation committees for two faculty members. Marilyn has served on the faculty senate for the past three years and the faculty senate executive for two of those years. Dr. Lee's research and publication interests include health professional education and social issues that impact health.

RECIPIENT: ELEANOR P. GAUNDER PHI KAPPA PHI EXCELLENCE IN TEACHING AWARD

"Since I believe that all knowledge is socially constructed, helping students view themselves as unique individuals within a community of learners is the starting point in my teaching. How we collaborate with others defines who we are as individuals."

Dr. Nicholas Mauriello, Associate Professor, English; B.A., 1988, M.A., 1991, Fairleigh Dickinson University; Ph.D., 2000, Indiana University of Pennsylvania

Little did Nick Mauriello know that a college work-study job as a writing center tutor would change his life. "I was looking for a job to make a few dollars to spend on textbooks, not looking to spend my life mentoring student writers. The more I worked with students, though, the more the teaching bug bit and it became clear that I would spend my life as a teacher of writing," recalls the UNA associate professor of English. Three decades later, the skills learned as a peer tutor are still evident in his teaching style. "The best writing tutorials are collaborative, give-and-take sessions where the student uncovers and questions the critical thinking process," says Mauriello. He adds, "Curiosity should lead to research and research should lead to understanding. I try to remember this every time I step into the classroom or design a new course. Since I believe that all knowledge is socially constructed, helping students view themselves as unique individuals within a community of learners is the starting point in my teaching. How we collaborate with others defines who we are as individuals."

A native of New Jersey, Mauriello came to UNA in 2005 after serving four years as a writing program administrator in Atlanta, GA. He credits his UNA students with restoring his passion for teaching: "I came to UNA to get back into the writing classroom, and this decision has been the best one of my career. By listening to students, we have been able to create new writing courses for the professional writing concentration. *New Media Writing*, where students write for the web and social media, and the *Professional Writing Portfolio Workshop*, where students professionally publish their writing, are two examples of our department's collaboration with students in curriculum development. Several of our recent graduates have been accepted to top-tier graduate schools, so we see the reward of our work."

The social constructionist framework is also easy to identify in Mauriello's career as a scholar. Since arriving at UNA, he has collaboratively written and edited three books on the teaching of writing and has two more books in progress. *Marginal Words, Marginal Work? Tutoring the Academy in the Work of Writing Centers* won the International Writing Centers Association's Outstanding Scholarship Award for Best Book 2007. His collaboration with Robert T. Koch, UNA's Director of the Center for Writing Excellence, led to the 2011 publication of *Before and After the Tutorial: Writing Centers and Institutional Relationships*. This collection also includes a chapter by UNA English Department colleague Kelly L. Latchaw.

Mauriello also tries to mentor students in the professional publication process. Two former students have taken internships with him in manuscript preparation, helping to guide two books to publication. Another current professional writing student, Deborah Bailey, is co-authoring a book chapter with Mauriello. The chapter chronicles how

an undergraduate's reaction to her *New Media Writing* course became a starting point for curriculum reform. "The credit for this idea belongs to the student," says Mauriello. "She approached me and asked about the theory behind our writing assignments. We created an independent study where she could examine and compare competing ideas and the book chapter took form. This is a prime example of social constructionist theory and what can happen in the classroom when students get curious."

Co-authored with David Black and Mark Foster, "Wall Street Avarice and Main Street Virtues: An Analysis of the Bailout Vote," *Cato Journal* Winter, 2011, Volume 31, Number 1 (forthcoming).

Co-presented with Mark Foster and Brett King, "An Empirical Examination of Unionization Elections in Alabama," at the Southern Economic Association Conference, Atlanta, GA. November 20, 2010.

Co-authored with Keith Malone, "Quantifying the Economic Impact of Infrastructure Expenditures in Alabama as a Result of Senate Bill 121," Alabama Jobs Coalition and the Alabama Road Builders Association regarding Amendment 3, Fall 2010.

Crabtree, John – Professor of Computer Information Systems

Co-authored with Dinesh Mehta and Tina Kouri, "An Open-Source Java Platform for Automated Reaction Mapping," *American Chemical Society Journal of Chemical and Information Modeling*, August 2010, armsrc.sourceforge.net.

Crews, Amy E. – Associate Professor of Biology

Co-presented with T. Haggerty, J. Garner, and R. Kawamura, "Reproductive Seasonality and Annual Fecundity in *Arcidens confragosus* (Unionidae: Unioninae: Anodontini) from Tennessee River, Alabama," 7th Biennial Symposium of the Freshwater Mollusk Conservation Society, Louisville, Kentucky. April 2011.

Darby, Wendy – Associate Professor of Traditional Nursing

Published, Photograph of a Fimbriated Hymen for Chapter 10. *Child Abuse and Neglect: Diagnosis, Treatment, and Evidence* by Carole Jenny. Title of chapter: Normal and Developmental Variations in the Anogenital Examination of Children. Elsevier Saunders. 2010.

Presented, "Let's Do It Over: An Online Simulation Grading Rubric." HPSN 2011 International Conference for Human Patient Simulation, Tampa, Florida, February 2011.

Davison, Paul G. – Associate Professor of Biology

Co-author with M. Ramaiya, M. Johnson, B. Shaw, J. Heinrichs, J. Hentschel, M. von Konrat, and A. Shaw, "Morphologically Cryptic Biological Species within the Liverwort *Frullania Asagrayana*," *American Journal of Botany*, 2010.

Co-presented with A. Risk, "Cryptogamic Discoveries in the Southern Appalachians: Progress in Floristics and Ecology," Annual Meeting of the Association of Southeastern Biologists, Huntsville, AL, April 2011.

Diaz, Frank – Assistant Professor of Chemistry

Co-presented with Matthew Tyler Melson, "The Synthesis of Chiral Heterocycles Useful as Isosteres of Morpholines." Southeast/Southwest Regional Meeting of the American Chemical Society, New Orleans, LA, November 2010.

Presented, "The Development of Highly Potent, Highly Selective Chk-1 Inhibitors." Southeast/Southwest Regional Meeting of the American Chemical Society, New Orleans, LA, November 2010.

Dolmatov, Valeriy K. – Professor of Physics

Co-authored with Dr. S. T. Manson, "Interior Static Polarization Effect in A@C₆₀ Photoionization," *Physical Review A*, Volume 82, 023422(1-3), 2010.

Co-authored with physics student Takehiro Akiyama, "Effects of the Interior Static Polarization in Photoionization of "Rregular" (A@C₆₀) and "Giant" (A@C₂₄₀) Endohedral Atoms: A comparative Study," *Bulletin of the American Physical Society*, Volume 55, no. 10, p.15, 2010.

Co-authored with physics student Emre Guler and Dr. S. T. Manson, "Effects of Screening of the Final-State A⁺ ion Static Potential within the C60 on A@C₆₀ Photoionization," *Bulletin of the American Physical Society*, Volume 55, no. 5, 2010.

Co-presented with physics student Takehiro Akiyama (presenting person), "Effects of the Interior Static Polarization in Photoionization of "Regular" (A@C₆₀) and "Giant"(A@C₂₄₀) Endohedral Atoms: A Comparative Study," 77th Annual Meeting of the Southeastern Section of the American Physical Society, Baton Rouge, Louisiana, October 20-23, 2010.

Presented, "Effects of Screening of the Final-State A⁺ ion Static Potential within the C₆₀ on A@C₆₀Photoionization," 41st Annual Meeting of the Division of Atomic, Molecular, and Optical Physics of the American Physical Society, Houston, Texas, May 25-29, 2010.

Driskell, Melissa M. - Instructor in Geology

Presented a talk co-authored with H. DeShon, entitled "3D Double Difference Velocity Tomography of the Costa Rican and Nicaraguan Subduction Zones," Siesmological Society of America Annual Conference, April 13-15, 2011.

Duvall-Zurinsky, Suzanne - Assistant Professor of Art

Co-authored with Joy Brown "Understanding Autism through Art," *Understanding Students with Autism through Art*, edited by Beverly Levett and Julia Kellman, NAEA publication, 2010.

Co-authored with Joy Brown, "The Importance of Environmental Mapping in the Visual Art of Students with Autism," National Art Education Association Conference in Seattle, WA. 2011.

Fitzsimmons, Matthew - Assistant Professor of Philosophy

Authored, "Civility as Manifest Respect," was published in the inaugural edition of the *Alabama Humanities Review*, March 2011.

Publications and Presentations at Professional Meetings

Garferick, Beth - Assistant Professor of Communications
