

Academic Update

February 13, 2017

Scott Infanger, Chair of the Shared Governance Executive Committee (SGEC), met with the Council of Academic Deans (COAD) to discuss a revised proposal for faculty sick leave.

The COAD discussed support roles among staff for the annual Awards Gala in April.

The COAD approved changes to the Curriculum Development (3.3.3) section of the Faculty Handbook for consideration by the SGEC.

Dr. Pierce asked that degree audit issues be shared first with dean offices instead of the student.

The COAD approved a request from Tammy Jacques, for consideration by the Curriculum Committee, to allow students in conditional admission status to enroll in up to 14 hours instead of 13 hours to accommodate FYE classes.

The COAD discussed the new promotion/tenure policy. Several questions were addressed about the transition from the old policy to the new one.
