UNDERSTANDING VMOCK SCORING AND FEEDBACK

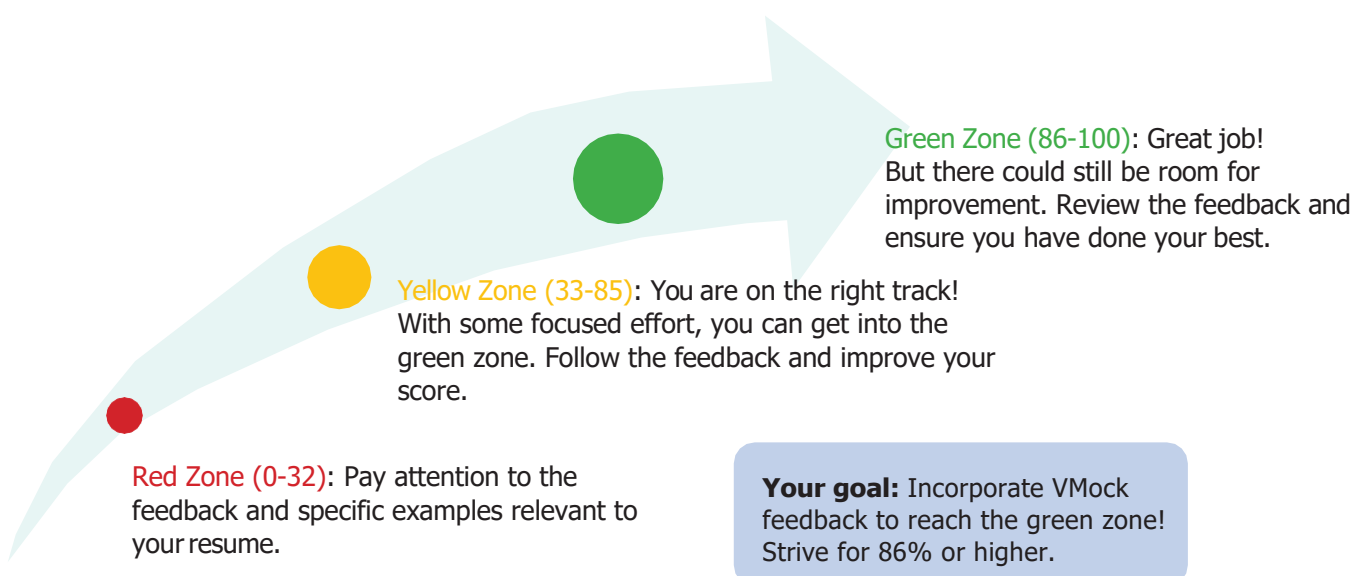

VMOCK Resume SCORE

What is VMock Resume Score?

Provided on a scale of 0-100, VMock resume score is computed based on 3 core modules. It appears automatically in your Student Dashboard after completion of the review process.

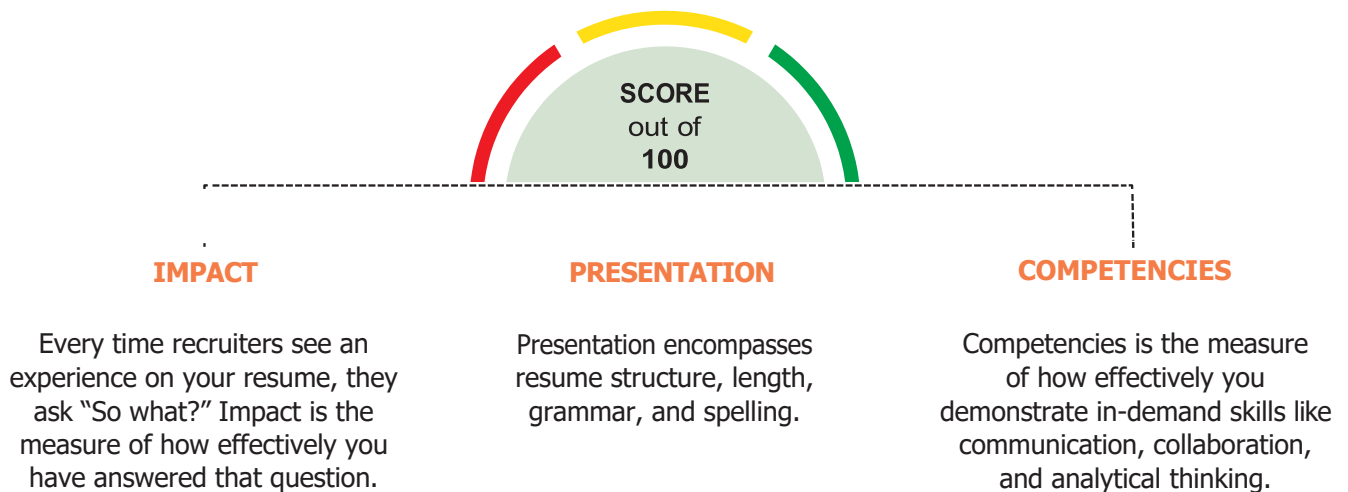

What does the score mean for you?

It indicates how well your resume presents your profile to recruiters and can belong to either red, yellow, or green zone.

VMOCK SYSTEM LEVEL FEEDBACK

System Feedback has three main modules: impact, presentation and competencies.

- Click on the view detailed feedback button to review the feedback.
- You may navigate between each module by clicking on its name, below your resume score.
- Each main module is comprised of core elements. Scroll down and click through each core element to view corresponding feedback highlighted in your resume.

Within each core element, see guidance to view key insights and suggestions for improvement.

VMOCK TARGETED FEEDBACK

Targeted Feedback also includes bullet level feedback. Bullet level feedback evaluates bullet points on six parameters which are action-oriented, active voice, specifics, over-usage, filler words and bullet length to provide suggestions for improvement.

- ▶ *To review bullet level feedback, click any bullet point.*

UPDATE YOUR RESUME

VMock is delighted to introduce an advanced **SMART Editor** to help you achieve all-star profile strength. Our machine learning engines scan your resume to offer instant and targeted sample suggestions for each bullet.
