

COVID-19 Self-Screening Assessment

In accordance with the recommendations of the Centers for Disease Control and Prevention (CDC), UNA will implement a return to work process to safely return employees to campus. The CDC recommends recall of employees by category based on their degree of exposure to the illness. Human Resources, department leaders, and University Health Services (UHS), are working together to implement the campus self-screen and monitoring plan. Employees will need to review the COVID-19 Self-Screening Assessment below before returning to campus and daily thereafter, until further notice. **In your review of the questions below, if you feel that you should answer with a "yes", you must call UHS at 256.765.4328 to determine if continued isolation from campus is indicated.** UHS will provide further instructions via phone consultation. The questions below are based on guidance provided by the CDC and the Alabama Department of Public Health (ADPH) and are subject to change.

- Do you have a fever or have you felt feverish within the past 24 hours?
- Do you have a cough? Do you have a sore throat?
- Do you have difficulty breathing or shortness of breath?
- Do you have fatigue?
- Do you have muscle pain?
- Do you have a headache?
- Do you have nausea, vomiting, or diarrhea?
- Do you have chills or repeated shaking with chills?
- Have you lost the ability to smell or taste?
- Have you tested positive for COVID-19, or are you awaiting COVID-19 test results?
- Have you been around anyone that has tested positive for COVID-19, or someone that is awaiting COVID-19 test results?
