

Student Government Association
Code of Laws Amendment
Bill 24-04

Written by Chief of Staff Nicholas Wilder
March 14, 2024

- I. This Act shall be known and cited as the Senate Reports bill.
- II. The purpose of this bill is to replace senator evaluations, which were removed in Bill 24-01, with senate reports. Senate reports will be used to evaluate goals, record work performed during the semester, and provide references for future iterations of SGA.
- III. It currently reads:
There is nothing pertaining to senate reports currently in the Code of Laws.
- IV. The Code of Laws shall now read:
500.2.1 At the end of each semester, the executive council and each of the respective committees will create senate reports for each of their respective groups. Senate reports will be concise written or typed documents that will be created during committee meetings and executive council meetings.
500.2.2 Senate reports will consist of the work conducted by a committee or executive council during the current semester and of future goals each group wants to accomplish.
500.2.3 The reports shall be a collaborative effort amongst all the members of each respective group, and members may not write reports outside of their committee or council. Members may still contribute to reports outside of their immediate committee or council. The reports will be as long as the executive council and committees need them to be to convey the proper information.
500.2.4 After the reports are created, they will be stored physically and or virtually so that current and future members of SGA will have access to them.
- V. This bill will become law upon ratification by two--thirds (2/3) vote of the University of North Alabama Student Government Association Senate, and its subsequent approval by the Student Government Association President and Vice-President.
