

Default Question Block

Study Purpose

The purpose of this online survey is to provide the University of North Alabama with critical information regarding the experiences of our students, as well as students' perceptions of our campus climate and campus resources as they relate to sexual assault and interpersonal violence. Your participation will be very helpful in making our campus community as safe as possible. The responses from this survey will aid in the development of effective programs to prevent sexual assault and interpersonal violence in our community, as well as enhance our support services when sexual assault and interpersonal violence occur. ***Please note that you can skip any question you would prefer not to answer and/or opt out of the survey at any time.***

To help us gather all necessary information, we have divided the survey into four parts:

- **Part I:** Tell us about our campus
- **Part II:** Tell us about your experiences
- **Part III:** Tell us about your attitudes and behaviors
- **Part IV:** Tell us about YOU

How long does it take to complete the survey?

Completion time will vary. It should take **approximately 25 – 40 minutes** to complete the survey.

Assurance of Anonymity

All survey responses will be completely anonymous, which means that your responses can not be connected to you in any way. As an additional measure to maintain anonymity of respondents, the feature in Qualtrics that collects IP address information has been disabled.

Participation is Voluntary

Participation in this study is voluntary. If you do not take part in this survey, it will not affect your rights in any way. If you are a UNA student, your decision will not affect your grade in any class at UNA or your privileges as a UNA student.

Participant Age

In accordance with Alabama state law, you must be at least 19 years of age to participate in this study OR you must receive parental consent to participate.

Risks/Discomforts

We believe that the likely risks of completing this survey are minimal. However, because we are asking about experiences with sexual assault and interpersonal violence, some of the questions may make you uncomfortable or be distressing to you. ***Please note that you can skip any question you would prefer not to answer. There is an arrow button at the bottom of every page that will allow you to skip to the next section if you choose. Please also note that you may exit out of the survey at any time.*** If you feel the need to discuss any discomforts you have experienced due to this study, please make an appointment to speak with someone at UNA Student Counseling Services at (256) 765-5215 and/or Rape Response at (256) 765-0025.

Survey Benefits

There are no direct benefits anticipated for you from answering questions on this survey. However, this survey will aid in the development of effective programs to prevent sexual assault and interpersonal violence in our community, as well as enhance our support services when sexual assault and interpersonal violence are reported.

There are also two potential ways in which you may be compensated for your time. First, students who complete this survey have the **opportunity to enter a drawing** to win one of the following: 1 \$50 gift card to the UNA Bookstore; 2 \$25 gift cards to Starbucks; and 5 \$10 gift cards for Dining Dollars. If you are interested in being entered into the drawing, please follow the link at the end of this survey. This link will take you to a separate page where you can enter your contact information. Your contact information will in no way be connected to your responses.

Second, some faculty members are offering extra credit to students who complete the survey. Please check with your professor in order to see if this is a possibility in your class. Please follow the instructions at the end of the survey where there will be an **option to save (as a PDF) and/or print a certificate of completion** for your participation. This confirmation page will in no way be connected to your responses.

To request more information about this survey, please contact the principal investigators, Dr. Amber Paulk (apaulk@una.edu / 256-765-4855), Dr. Yaschica Williams (ywilliams@una.edu / 256-765-4697), or Dr. Andrea Hunt (ahunt3@una.edu / 256-765-5137).

If you are under 19 years of age, you must receive parental consent to participate in the survey. A parental consent form can be found at the following link: [Parent Consent Form](#) . Please follow the directions on the form to receive instructions on how you can participate in the survey.

By selecting I CONSENT, you are confirming you are 19 years or older AND you consent to participate in the survey; OR you are under 19 and have provided the parental consent form to the appropriate personnel. Your consent means you understand the information presented in this consent form. By consenting, you have not waived any legal rights you otherwise would have as a participant in a research study. If you have chosen not to participate, please exit the survey at this time.

- oral sex (someone's mouth or tongue making contact with your genitals or your mouth or tongue making contact with someone else's genitals)
- sexual intercourse (someone's penis being put inside your vagina)
- anal sex (someone's penis being put in your anus)
- sexual penetration with a finger or object (someone putting their finger or an object like a bottle or a candle in your vagina or anus)

The questions below ask about unwanted sexual contact that involved force or threats of force against you. Force could

If a girl is raped while she is drunk, she is at least somewhat responsible for what happened.									
When girls go to parties wearing revealing clothes, they are asking for trouble.									
If a girl goes to a room alone with a guy at a party, it is her own fault if she is raped.									
If a girl hooks up with a lot of guys, eventually she is going to get into trouble.									
When guys rape, it is usually because of their strong desire for sex.									
Guys don't usually intend to force sex on a girl, but sometimes they get too sexually carried away.									
Rape happens when a guy's sex drive gets out of control.									
If a guy is drunk, he might rape someone unintentionally.									
If both people are drunk, it can't be rape.									
It shouldn't be considered rape if a guy is drunk and didn't realize what he was doing.									
If a girl doesn't physically resist sex—even if protesting verbally—it really can't be considered rape.									
If a girl doesn't physically fight back, you can't really say it was rape.									
A lot of times, girls who say they were raped agreed to have sex and then regret it.									
Rape accusations are often used as a way of getting back at guys.									
Girls who say they were raped often led the guy on and then had regrets.									
A lot of times, girls who claim they were raped just have emotional problems.									

If the accused “rapist” doesn’t have a weapon, you really can’t call it a rape.

Girls who are caught cheating on their boyfriends sometimes claim that it was rape.

If a girl doesn’t say “no,” she can’t claim rape.
